"WORLD'S TOUGHEST PADLOCKS"  
"MILLIONS IN USE"

With the desire to familiarize you with the various items we manufacture, this catalog is being submitted to you. Please keep it in a convenient place and refer to it whenever you are in need of the best.

As you study these pages, you will note that into each one of our padlocks and hasps has gone the finest in materials, the best workmanship and the know-how of 47 years experience in the manufacture of locks with the resultant "strongest padlock made". Our patented double steel ball locking feature has been tested and acclaimed throughout the country. These locks safeguard America's leading oil equipment, National chain store buildings, express trucks, trucking company trailers, lockers in leading schools and colleges, prisons and reformatories. Customers seeking the utmost in security single them out.

With confidence fostered by your acceptance of our product, we are planning a large expansion program during the coming year - larger facilities, new quality items and increased efficiency reflecting in quick deliveries to you.

Would you please give us the opportunity of continuing to serve your future requirements.

# hardened steel padlocks

## HERCULES OF PADLOCKS

### STEEL BALLS

#### LOCK IT SOLID EXCLUSIVE PATENT

Unlike pins, which can shear under pressure, these hardened steel balls wedge even tighter when the shackle is forced.

So effective is this patented system of locking that law enforcement agencies have testified that AMERICAN locks are virtually indestructible.

Where complete protection is expected—go to buy the best—buy AMERICAN.
