"Miller Cylinder" Rim Night Latch

PATENTED ADJUSTING BAR

Free Download From www.AntiquesPadlocks.com
this document is not to be sold

Case—Iron, extra heavy, chemically finished, with polished coppered edges and sides.
Size, 2½ x 3½ inches.

Bolt—Iron, bronze plated and reversible.

Escutcheon—Bronze, with corrugated key-way in cylinder, as shown.

Fitted with the "Miller" patent improved knob for throwing "off" and for opening door from within. Only one hand required.

Adjustable to doors 7/8 to 2 inches. Three reverse strikes packed in each dozen.

Two small nickel-plated corrugated steel keys. 24 key changes.

Instructions—Bore a hole with 13/16-inch bit 1 7/8 inches from the edge of the door to the center of hole. Insert cylinder and drive the small pins into door with flat of hammer. Bend back adjusting bar towards edge of door and screw tightly. Break off connecting bar with claw hammer, according to thickness of door. Connecting bar is stamped and notched to the different thicknesses.

No. 137 C.per dozen,

Weight, per dozen, 10¾ lbs. **Packed**, one in a box, with screws complete.

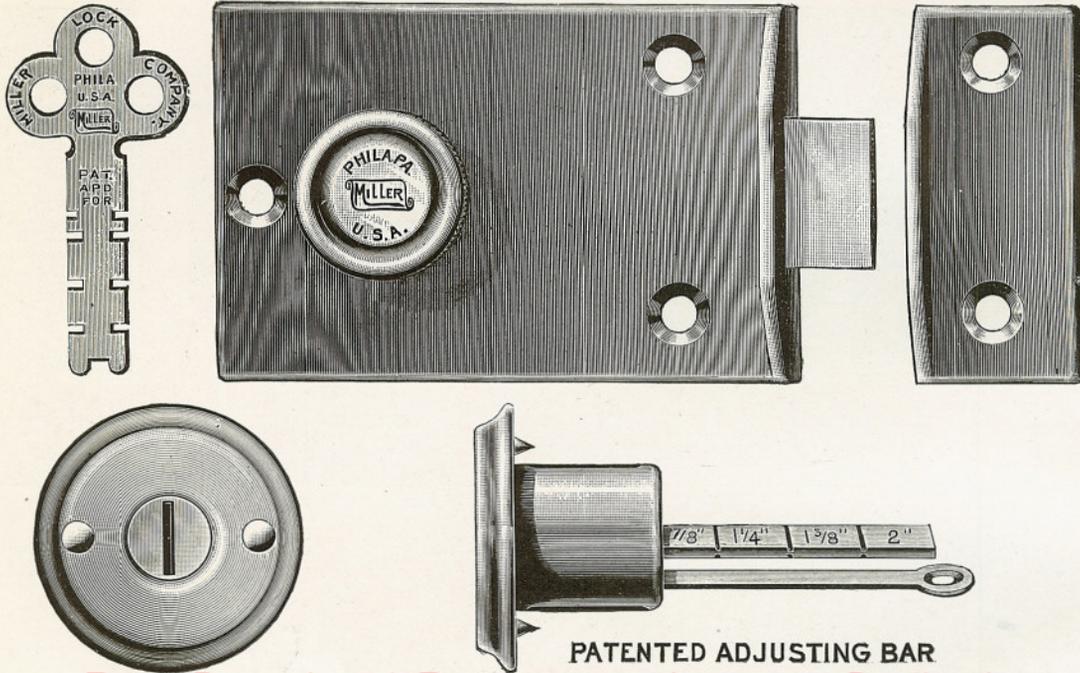

Key blanks, use key blank No. 137 C (see page 67).

Chains for Padlocks

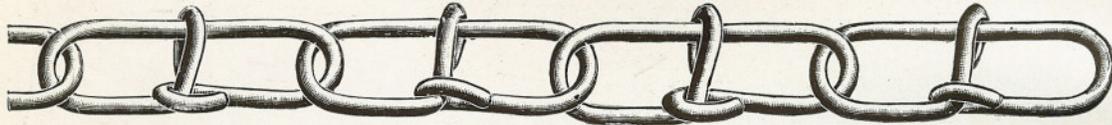

Illustrations
Full Size

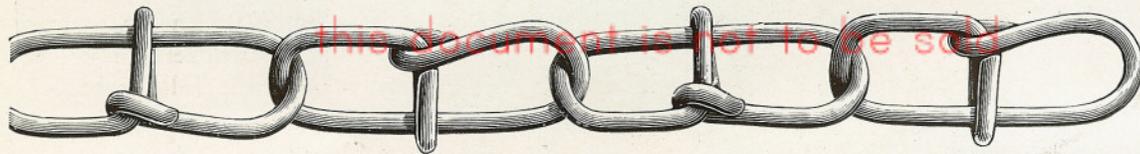

Steel No. 6-N

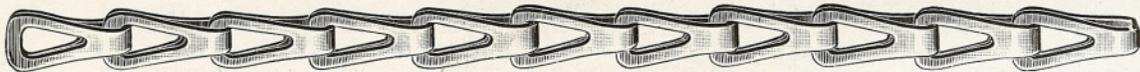

Steel No. 3-E

Steel No. 1-E

Steel No. 2-OE

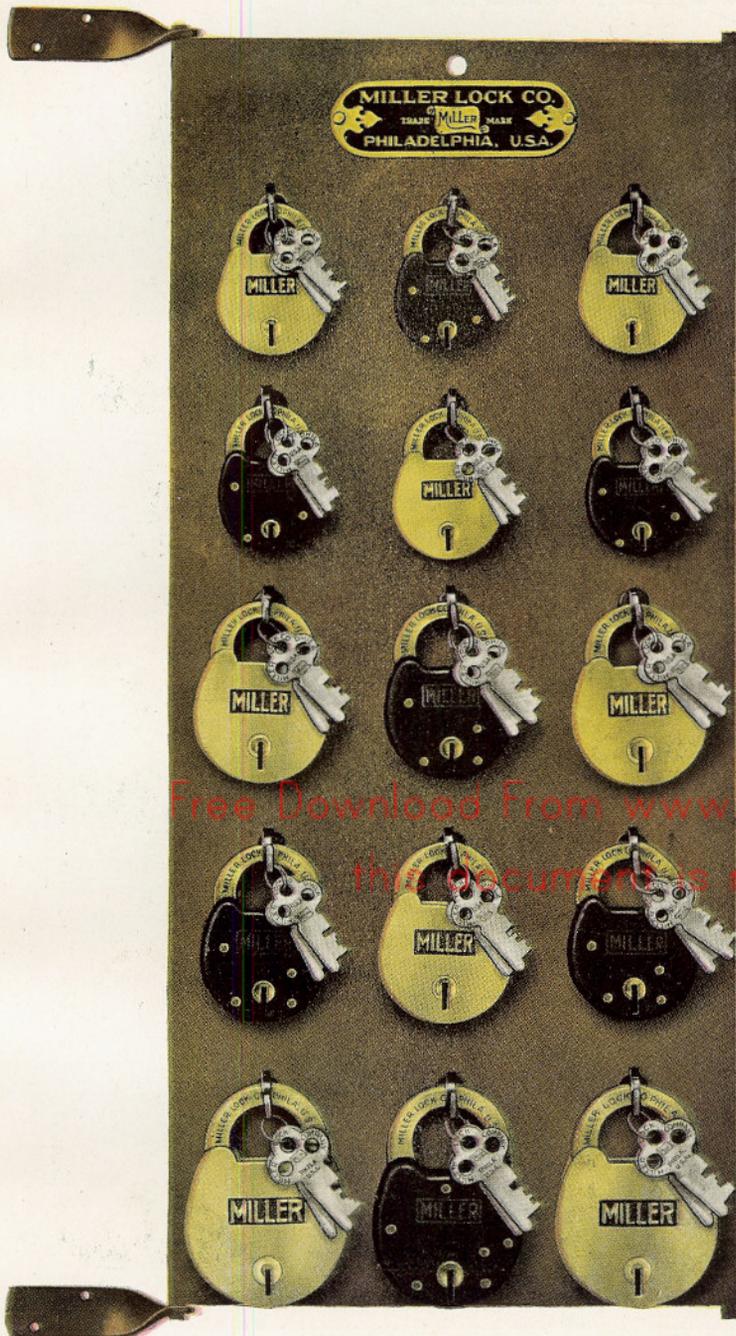

Bronze No. 1-M

Steel chains may be obtained in the following finishes: Black japanned, nicked bright, galvanized or tinned; unless orders state otherwise, the nickel plated chain will be supplied.

Bronze chains are dipped bright.

Longer lengths of chains than specified on the different padlock pages can be supplied at an extra charge.

**PANEL ASSORTMENT
No. 920**

Mounted on an Indestructible Steel Display Shutter, dark green color, highly finished, size 21 inches long and 9 1/4 inches wide. The panel has hinges, and may be swung when fastened to door, window frame, wall, showcase, shelving, pillar, etc. Or being holed at top, it may be suspended from hook or nail—a permanent fixture.

The keys arranged so they may be unhooked, and used to remove or to replace locks, which are secured to the board by metal staples.

The No. 920 Panel Assortment consists of 1/4 dozen Heavy Duty Padlocks of the following:

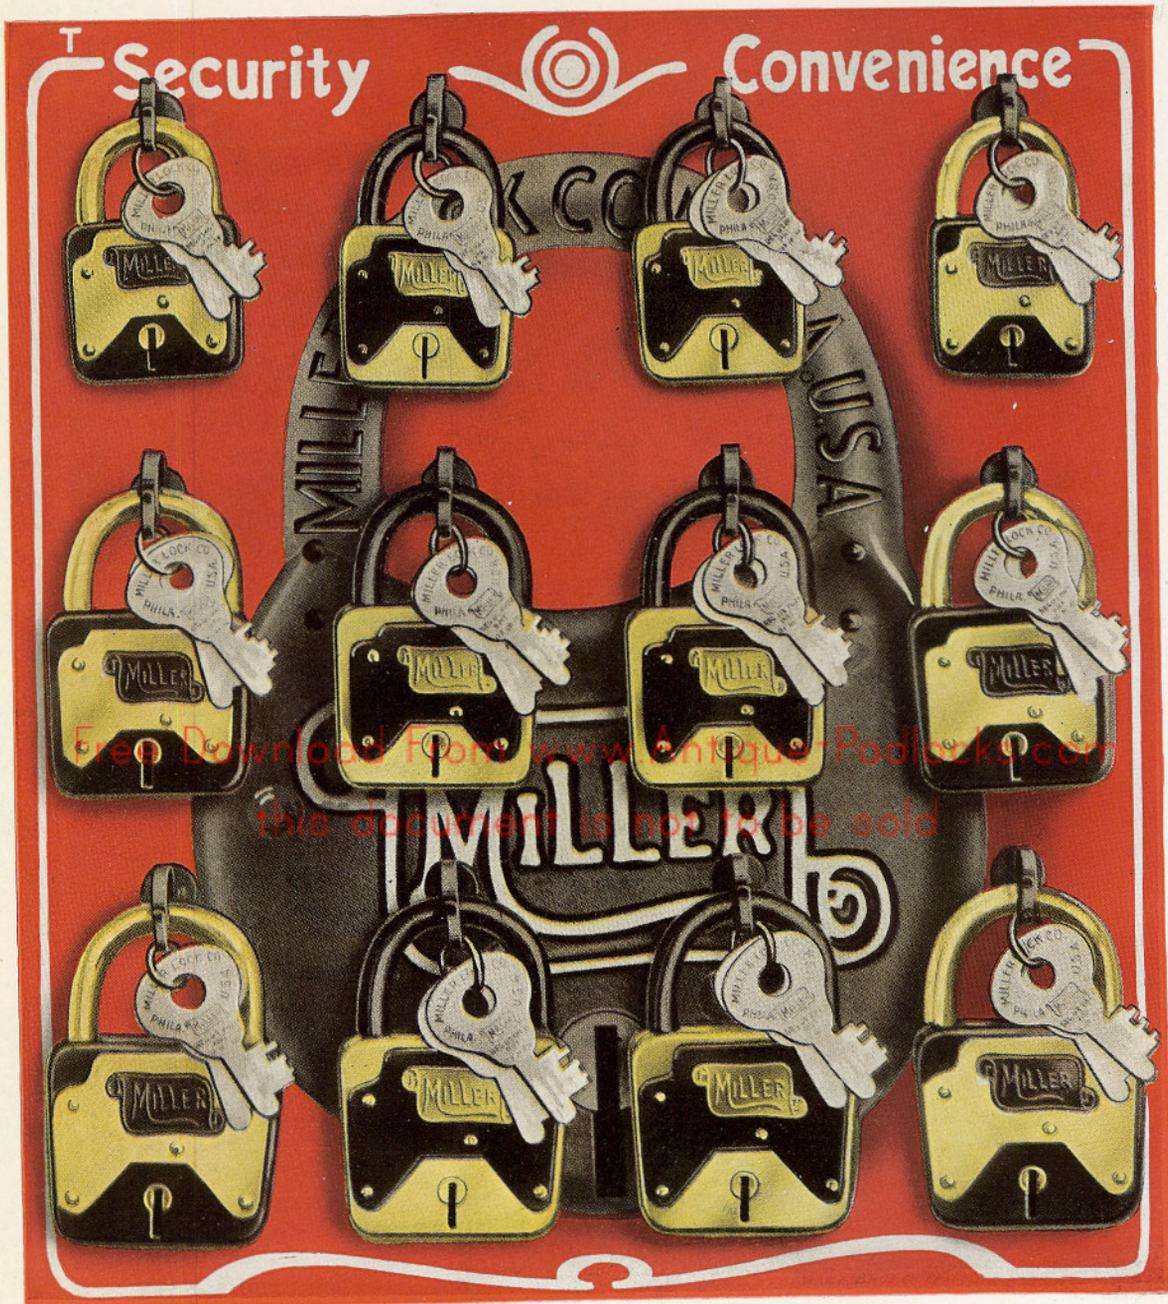

| | | | |
|------|-----|-----|-----|
| Nos. | 817 | 850 | 817 |
| | 850 | 817 | 850 |
| | 617 | 650 | 617 |
| | 650 | 617 | 650 |
| | 417 | 450 | 417 |

Packed, complete in a box.

Net weight of locks in a box, 6 13/16 lbs.

Legal weight (box and contents), 10 1/16 lbs.

Card Assortment "T"

Size 10½ x 12 Inches

Assortment "T" consists of one dozen padlocks of the following:

| | | | | |
|------|-----|------|------|-----|
| Nos. | 6 | 8B | 8B | 8 |
| | 88 | 88B | 88B | 88 |
| | 888 | 888B | 888B | 888 |

Packed, complete in a box with a wire easel.
 Legal weight card and contents, 3½ lbs.
 Net weight of locks in a box, 3¼ lbs.

Padlock Card Assortments

Consisting of one dozen locks each, mounted on heavy 10½ x 12 inch card-board, as shown on page 58; the keys arranged so they may be unhooked, and used to remove or to replace locks, which are secured to the board by metal staples.

Each card has an eyelet by which it may be hung up, and also a wire easel by which it may stand upon the counter, or in a show window.

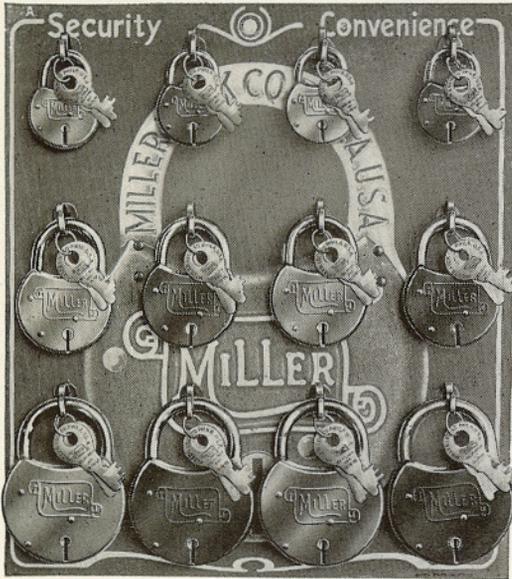

Padlocks thus mounted on cards are well-presented, and displayed in windows or on counters secure the best opportunity for sales.

Each card is packed complete in a box with a wire easel.

Standard assortments, as illustrated on pages 60 to 64, inclusive, consist of the following Nos: A, B, C, D, E, F, G, I-30, L, PZ-13, Q-3, R, T, U, and Z-20.

Card Assortments are generally packed in lots of 50 boxes per case. Gross and net weight, also measures of cases containing 50 boxes, are shown on page 4, "Data for Export Trade."

Padlock Card Assortments
